Interior works in new premises of Uppal branch& AMH, Uppal, Hyderabad

The Architect shall render the following services in connection with the above project:

- i) Taking the employer's instructions, studying the requirements, visiting the site, preparing sketch designs which shall be in accordance with local governing codes / standards, regulations, etc. and also in line with the Bank's Guidelines (including carrying out necessary revisions till the sketch designs are finally approved by the employer), preparing cost estimates for Interior decoration/furnishing and repair work based on the prevailing market rates substantiated by rate analysis for major/unusual items. (Proposals for Interior Decoration/furnishing work shall be simple but elegant, consistent with functional and aesthetic requirements and shall avoid lavish and ostentatious expenditure), discussing with the employer for finalization of estimates and preparing report on the scheme to enable the employer to take a final decision on the sketch designs and estimates.
- ii) Submitting a proper program chart incorporating all the activities required for the completion of the proposed work well in time. The program should also include various stages of services to be done by the Architects in co-ordination with the Bank.
- iii) Preparing detailed working drawings for strong room specification as per Annexure A attached and structural calculations and structural drawings, layout drawings for furniture, cabins, water supply and drainage, electrical installations, telephone installations, \ fire detection system, air-conditioning units installation if required by the Bank, security systems, etc. and preparing detailed estimates and all such other particulars as may be necessary for preparation of bill of quantities.
- iv) Preparing detailed tender documents for various trades and specialist services, etc. complete with articles of agreement, special conditions, conditions of contract, specifications, bill of quantities including detailed analysis of rates based on market rates, time and progress charts, etc.
- v) Inviting tenders for all trades and submitting assessment reports thereon, together with recommendations specifying abnormally high and low rated items. Preparing contract documents for all trades and getting them executed by the concerned contractors. (All commercial conditions shall be evaluated in financial terms instead of merely saying whether a condition may be accepted or not. When conditions are not susceptible to evaluation, the alternative procedure of calling all the tenderers for negotiation and asking them to submit a final bid based on the terms and conditions acceptable to the Employer may be adopted.)
- vi) Preparing for the use of the employer, the contractor and site staff, 4 copies of contract documents for all trades including all drawings, specifications and their particulars.
- vii) Assuming full responsibility for supervision and proper execution of all work by general and specialist contractors who are engaged from time to time including control over quantities during the execution to restrict variation, if any, to the minimum.
- viii) Architect shall not authorize any deviations or substitutions in the work without working out the financial implication, if any, to the Contractor and without obtaining prior approval of the employer.

ix) Checking measurements of work at site. Checking Contractor's bills, issuing periodical certificates for payments, and passing and certifying accounts, so as to enable the employer to make payments to the Contractors and adjustments of all accounts between the Contractors and the employer. Architect shall assume full responsibility for all measurements certified by them. A recommended certification proforma for the purpose is given below :

"Certified that the various items of work claimed in this running bill/ final bill by the Contractors have been completed to the extent claimed and at appropriate rates and that the items are in accordance with and fully confirming to the standard / prescribed specifications and hence the bill is recommended for payment of Rs (Rupees)"

x) Obtaining approval of Municipality and such other authority for the work completed wherever required and assisting in obtaining refund of deposit, if any, made by the employer to the Municipality or any such other authority.

xi) Preparing, on completion of the work, a brief report on the project and submitting 2 copies of the same along with important drawings of the project for the records of the employer.

xii) The Architect shall be wholly and solely responsible for the successful completion of the work in all respects consistent with safety and structural stability from the inception up to the handing over for occupation to the employer.

xiii) The Architect shall assist the Bank in all arbitration proceedings between the contractors and the employer and also defend the Employer in such proceedings.

xiv) Any other services connected with the work usually and normally rendered by the Architect, but not referred to herein above.
